

WEST SOUND BEEKEEPER'S ASSOCIATION

2011 swarm list

The West Sound Beekeepers Association will capture and collect honeybee swarms

Area Zones

- A** Silverdale/Bremerton
- B** Kingston/Poulsbo
- C** Hansville/Port Gamble
- D** Bainbridge
- E** Seabeck/Belfair
- F** Port Orchard/Gig Harbor

If you get a swarm call...

The listed beekeepers are members of the West Sound Beekeepers Association and are willing to pick up swarms of HONEY BEES at no charge if the bees are a reasonable distance from the beekeeper and the bees are not too embedded into a structure such as walls, chimneys, etc. All efforts should be made to report the swarms and have them picked up **as soon as possible** before they move into undesirable places.

Procedure...

- 1** Give the phone number of two to four beekeepers in the *appropriate Area Zone closest to the location of the call*. The **names in bold** at the top of the list are most often available to respond quickly. Tell the caller to leave a message if the beekeeper is not home.
- 2** All beekeepers on this list will remove honey bees. If the call is about removal of yellow jackets, wasps, bumble bees or embedded bees *can usually be removed without toxic chemicals by a beekeeper*. Use the following code to select the appropriate beekeeper who may do the additional tasks, *sometimes for a fee*.
- 3** Specialist Codes...
 - 1** Will remove hornets, wasps, yellow jackets and bumble bees.
 - 2** Will travel some distance to remove bees.
 - 3** Will remove insects from structure.
 - 4** Will remove insects and repair structures if requested.
